Keshav Goyal

Phone: +91-7589978904 | Mail: keshavpec24@gmail.com | LinkedIn: linkedin.com/in/keshavgoyalpec | GitHub: github.com/keshav-pec

Achievements

- **ICPC Kanpur Regionalist** – Qualified ICPC Prelims'26 (2nd rank in PEC)
- Secured **1st Position** in PEC's annual intra-college competitive programming contest
- Solved **600+ DSA** Problems across various programming platforms
- College Finalist – Smart India Hackathon 2026 (1st rank in PEC), 2025 (9th rank in PEC)
- Hacktoberfest'25 **Super Contributor** – merged **6+ pull requests** successfully
- **99.5 Percentile** in JEE Mains'24 among 1.4 million+ candidates
- **295** Score in BITSAT'24 | Qualified JEE Advanced'24 (Rank: 13352)

Skills

- **Languages:** C++, Java, Python, JavaScript, SQL
- **Development:** Node.js, Express.js, WebRTC, Manifest V3, GenAI, MongoDB, PostgreSQL, Redis, Pinecone – **Frontend Frameworks:** React, Tailwind CSS, Axios, Zustand, Framer Motion, SPA
- **Tools:** Git, GitHub, Docker, Postman, JEST, Chrome Extensions, Google Cloud Platform, AWS
- **Competitive Programming:** CodeChef (3⋆), Codeforces (Specialist), LeetCode (Knight)

Projects

LasMinAI – AI Productivity Platform *MERN • Gemini • Chrome Extension • Google Workspace APIs*

- Developed **9 interconnected** AI modules, including task management, intelligent workspace planning, daily blueprint, autonomous pre-session digests, proactive reminders, gamified habit tracking, global voice assistant, browser task extraction, and smart form autofill.
- Designed a deeply integrated **Manifest V3** Chrome Extension utilizing Service Workers that packages into a lightweight **43 KB** production **.zip** payload.

NexMeet – Real-Time Video Conferencing Platform *React • Node.js • MongoDB • WebRTC • LiveKit*

- Built a full-stack video conferencing platform supporting **50+ concurrent users** using **SFU** architecture.
- Integrated AI-powered **live transcription** and **meeting summarization**, enabling real-time captions and host-accessible summaries through meeting history and archives.
- Implemented speaker detection, participant management, passcode-protected meetings, and dynamic video layouts with pagination for a smoother real-time collaboration experience.

AI Knowledge Retrieval System (RAG) *Python • FAISS • Hugging Face • FastAPI • Streamlit*

- Built a Retrieval-Augmented Generation system processing **1,000+ pages** and generating **6,000+ vector embeddings** for semantic document search utilizing a **FAISS** vector database.
- Developed REST APIs for document ingestion and real-time querying with source-grounded responses.

Experience

Full Stack Developer Intern – Reagvis Labs *Jun 2026 – Jul 2026*

- Contributed to **software architecture** using the MERN stack, collaborating with the development team to build and deploy reliable production applications on **AWS**.
- Worked with **AWS-hosted infrastructure**, Docker, and **GitHub Actions CI/CD** to automate build and deployment workflows and support reliable production releases.

Frontend Developer (Freelance) – Rohindia *Oct 2025 – Nov 2025*

- Engineered the frontend interfaces for Cafe Lamhey and Lamhistan using semantic HTML5 and vanilla JavaScript, achieving **96+ SEO** and **accessibility scores** on Google Lighthouse.

Education

Punjab Engineering College, Chandigarh *2024 – 2028*

B.Tech in Computer Science and Engineering **CGPA: 8.79/10**

Coursework: Data Structures, Algorithms, Object Oriented Programming, Operating Systems, Computer Networks, Database Management Systems, AI/ML

Positions Of Responsibility

- **Execution Body Member – PEC ACM-CSS**
  - Delivered a GitHub workshop for 50+ students covering version control and practical Git/GitHub usage.
  - Actively contributed to college events and technical sessions to foster a strong coding culture across campus.
- Core Committee Member – Women Empowerment Cell, PEC
- Foundational Committee Member – Speed Cubing Club, PEC
