Education

Punjab Engineering College, Chandigarh

B.Tech in Computer Science and Engineering (2024-2028)

CGPA: 8.79

DAV Public School, Patiala

Class XII (2024)

89.4%

Class X (2022)

97.2%

Skills

- **Languages:** Java, C++, Python, JavaScript, Kotlin
- **Development:** MERN Stack, MVC, REST APIs, MongoDB, Tailwind CSS, Manifest V3, Google GenAI
- **CS Fundamentals:** Data Structures, Algorithms, OOP, Operating Systems, Computer Networks, AIML
- **Competitive Programming:** [CodeChef \(3★\)](#), [Codeforces \(Pupil\)](#)

Projects

LasMinAI – AI Productivity Manager *MERN • GenAI • Chrome Extension • Google Workspace APIs*

- Built an **agentic AI** productivity platform that autonomously extracts, prioritizes, schedules, and manages tasks using **conversational AI**, **browser automation**, and **Google Workspace integrations**.
- Developed **9** interconnected AI modules, including conversational task management, autonomous workstation planning, AI reminders, habit automation, voice assistant, browser task extraction, and smart form autofill.
- Integrated Gemini with **Google Calendar**, **Gmail**, **Drive**, and **Cloud Scheduler** to automate workflows.

AI Knowledge Retrieval System (RAG) *LangChain • FAISS • Hugging Face • FastAPI • Streamlit*

- Built a Retrieval-Augmented Generation system processing **1,000+ pages** and generating **6,000+ vector embeddings** for semantic document search.
- Developed REST APIs for document ingestion and real-time querying with source-grounded responses.

NexMeet – Real-Time Video Conferencing Platform *React • Node.js • MongoDB • WebRTC • LiveKit*

- Built a full-stack video conferencing platform supporting **multiple concurrent users** using **SFU** architecture.
- Implemented meeting workflows including video calls, screen sharing, live chat, and secure authentication.
- Designed scalable **REST APIs** and room-based session management along with a **responsive user interface** built with React, TailwindCSS, and Lucide icons.

Experience

Software Developer Intern – Reagvis Labs

Jun 2026 - Present

- Contributing to **software architecture** and collaborating with the development team to build reliable production applications.
- Working on web architecture while integrating **AI/ML services** into production workflows.

Frontend Developer (Freelance) – Rohindia

Oct 2025 - Nov 2025

- Worked on frontend technologies for production applications including the **CafeLamhey** blogging platform.
- Implemented **responsive UI components**, optimized client-side performance, and collaborated with backend developers to integrate REST APIs.

Open Source Contributor – Hacktoberfest

Oct 2025

- Contributed to multiple open-source repositories including AlgoVisualizer and ACM-Fun.
- Developed **6+ responsive UI components** using React.js, improving usability and interface consistency across applications.
- **Optimized backend APIs** and debugging workflows, improving overall system reliability.

Achievements

- **99.5 Percentile** in JEE Mains 2024 | **295** Score in BITSAT 2024
- Qualified JEE Advanced 2024 (Rank: 13352)
- College Finalist – Smart India Hackathon 2025

Positions of Responsibility

Implementation Body Member – PEC ACM-CSS

- Delivered a hands-on GitHub workshop for 50+ students covering version control, collaboration workflows, and practical Git/GitHub usage.
- Actively participate in college events and sessions to foster a strong coding culture across campus.
- Core Committee Member – Women Empowerment Cell, PEC
- Foundational Member – Speed Cubing Club, PEC
